Job Experience

Veriforce

Senior Frontend Developer

July 2017 - Present

Playing a pivotal role in the process of architecting newly developed applications in React, Redux, Typescript, and Material-UI.

Set up a monorepo for over a dozen React applications and several private NPM packages using Lerna and Jenkins.

Created the first private NPM package and build processes to share code between React/legacy applications.

Implemented Typescript into existing React applications.

Netchex

Software Developer

November 2014 – July 2017

Worked in a agile scrum environment doing full stack development on an application that specialized in payroll, benefits, and human resources.

Developed back-end code base using domain driven design with C#, Web API, and MVC5.

Developed frontend single page applications using AngularJS, TypeScript, Bootstrap, and LESS.

Edison Chouest Offshore

PLC Programmer

December 2013 – November 2014

Implemented automation systems on new vessels using ladder logic.

Skills

React

Redux

TypeScript
